D Fix Enterprise

✚ *Our company is led by a team of highly qualified and experienced staff. The strong technical bond, support and expertise enable us to effectively meet the changing demands of the market, that too in the best possible and appropriate manner.*

✚ *Our commitment to sustainability encompasses ecological, economical and social aspects.*

✚ *Our products, technologies and processes meet the highest standards. For years, sustainability has been part of DFIX's production and business processes. One of our greatest strengths is our closed material loops, where we use byproducts from one production stage as starting materials for making other products. This reduces our consumption of energy and other resources.*

✚ *Our strong sense of social responsibility is based on deeply rooted values. We pursue this commitment in the vicinity of our sites and wherever people are in distress around the world. Society's trust in our actions is an essential component of our long-term economic success.*

✚ *Our growth strategy is to focus on segments of larger markets where we can establish leading market positions through consolidation and organic growth.*

✚ *The Group of companies has six manufacturing plants in Ahmedabad district. Two plants are at Sanand village on Ahmedabad Viramgam highway, two plants are at Narol, Ahmedabad and Two plants at Chattral, Ahmedabad-Mehsana Highway with Area of 15000-20000 Sq.Yards.
